Ashish Kumar Maurya

Senior Software & DevOps Engineer

Uttar Pradesh, India · m.ashish0924@gmail.com · linkedin.com/in/m-ashish-maurya

PROFESSIONAL SUMMARY

Senior Software & DevOps Engineer with 6+ years of experience building, deploying, automating, and supporting enterprise software and cloud environments. Hands-on across .NET/C#, SQL, Azure, AWS, Azure DevOps, CI/CD, PowerShell, Windows Server, IIS, infrastructure automation, monitoring, and production support.

EXPERIENCE

Senior Software Engineer — Naviga Global | Apr 2025 – Present

- Architect and maintain enterprise CI/CD pipelines using Azure DevOps across product lines and deployment environments.
- Automate build, release, and infrastructure provisioning using Azure Pipelines, ARM templates, and PowerShell.
- Design and support Azure and AWS environments with emphasis on standardization and deployment reliability.
- Implement monitoring, logging, alerting, incident response, and root-cause analysis for application and infrastructure issues.
- Support enterprise .NET applications and SQL workloads across development, test, and production.
- Use AI-assisted development tools for scripting, code investigation, refactoring, documentation, and DevOps automation.

Software Engineer — Naviga Global | Aug 2022 – Mar 2025

- Built and maintained CI/CD pipelines and automated deployment workflows using Azure DevOps.
- Supported enterprise applications through deployment, monitoring, maintenance, health checks, and production troubleshooting.
- Optimized SQL queries and supported .NET application debugging.
- Developed PowerShell and Python automation to reduce manual operational work.
- Supported Windows Server and IIS-based application hosting environments.

Software Engineer – Database — Naviga Global | Feb 2022 – Aug 2022

- Developed database workflows using SQL, SSIS, and C# for high-volume data processing.
- Built utilities for large-scale data loading and validation.
- Provided production database support focused on data integrity and system stability.

Associate Software Engineer — Indus Valley Partners | Nov 2019 – Apr 2021

- Developed and enhanced enterprise financial applications using .NET, C#, SQL, and PL/SQL.
- Built automation components and software enhancements for SaaS applications.
- Supported client upgrade deployments and RDLC reporting requirements.

TECHNICAL SKILLS

Software: C#, .NET, SQL, Python, JavaScript, LINQ · **Cloud:** Microsoft Azure, AWS, ARM Templates · **DevOps:** Azure DevOps, CI/CD, Azure Pipelines, TFVC · **Infrastructure:** Windows Server, IIS, PowerShell, application hosting · **Data:** SQL Server, SSIS, PL/SQL · **Reliability:** Monitoring, logging, alerting, incident response, RCA, performance optimization

EDUCATION

Master of Computer Applications — GLA University, U.P. | 2018–2020

Bachelor of Computer Applications — Integral University, Lucknow | 2015–2018

AI & MODERN TOOLING

AI-assisted development, spec-driven workflows, agent automation, PowerShell/SQL/Python acceleration, prompt engineering for DevOps automation.
